Solar 2013

CONFERENCE & EXPO

Presented by AUPVSEE & Australian Solar Council

EXECUTIVE REPORT

Dear Colleague,

Solar 2013 presented by the Australian Solar Council and international partner Australian PV Solar Energy Exhibition (AUPVSEE) was held at the Melbourne Convention and Exhibition Centre on the 23rd and 24th May 2013.

The two day show attracted more than 2200+ registered delegates from over 15+ countries. The three conference streams focused on industry and policy, scientific and research, and solar installer professional development training, organised in conjunction with the Solar Energy Industries Association (SEIA).

Participants agree that Solar 2013 was a successful event, which incorporated a world-class industry focused conference program, exceptionally well organised exhibition and outstanding networking opportunities.

Solar 2014 Conference & Exhibition will return next year at the Melbourne Convention and Exhibition Centre on the 8th – 9th May 2014.

We look forward to seeing you there!

Kind regards

John Grimes
Chief Executive Officer
Australian Solar Council

"Solar 2013 was by far one of our companies' most successful events. We found the expo to be an excellent way to contact our target market; the Professional Development days were an excellent way to draw in our target audience and capture their attention. As a major sponsor we had a prime location and large crowds surrounding our booth... we felt the overall layout, timing and duration of the expo was superior to any other expo we had attended."

Platinum Sponsor – Solar Inception

"WINAICO attended Solar 2013 and was very glad we did so! To meet our customers and share a coffee with them and afterwards a drink was extremely good for our ongoing business relationship. Not only did we renew acquaintances with existing customers but we engaged with so many new dealers and expanded our network! "
